

P21259.A02

82. The composite indefinite chill roll of claim 81, wherein the casting alloy of the working or sleeve part comprises 3.3 to 3.75 wt-% of vanadium.

83. The composite indefinite chill roll of claim 76, wherein the core part is made of ductile iron.

 84. The composite indefinite chill roll of claim 83, wherein a binding zone between the working or sleeve part and the core part has, in the radial direction, a bending strength (3-point bending test) of greater than 600 N/mm<sup>2</sup>.

REMARKS

Upon entry of the above amendment, claims 31-84 will be pending, with claims 31, 56 and 76 being in independent form.
